## Bio Control 1610

### Liquid Odour Control

Biocontrol 1610 is specially formulated and packaged for easy application directly to areas emitting bad odors, leaving a fresh, clean fragrance.

To assure optimal performance of this product under the toughest conditions, it has been produced and blended together with high potency surfactants and odor modifiers, which control malodors at the source.

Biocontrol 1610 is ideal for residential and commercial applications where odor is a concern. Use as needed in kitchens, restrooms, trash receptacles, pet areas, dumpsters, cars and any other areas where bad odors occur.

When used as directed, Biocontrol 1610 is safe for people, clothing and the environment. This product is non-caustic, non-acidic and biodegradable.

#### **Application:**

Biocontrol 1610 can be used in a spray bottle and sprayed into the air around and directly on to odorous surfaces as needed. This product may also be added to mop water and used on floors, around urinals, etc. Wet floors may be slippery. Use care to avoid falling.

#### **Specifications:**

Form: Free-flowing liquid  
Color: Opaque  
Fragrance: Natron  
Active Content: Surfactants, Odor Modifiers & Bacteria cultures

#### **Packaging:**

Packaged to suit customer needs and for ease in use. Quart, Gallon, 5 gallon, 30 gallon or 55 gallon drum.

#### **Steps to be taken if material is released or spilled:**

Wear eye and skin protection. Floors treated with Biocontrol 1610 may be slippery; use care to avoid falling. Avoid discharge to natural waters. Small spillages can be washed away with large amounts of water. Large spillages, if contained, can be returned to container.

#### **Waste Disposal Method:**

For disposal of aqueous surfactant solutions: Aerobic biological effective in treating aqueous solutions of surfactants. Removal efficiency will depend upon treatment plant conditions. As with any wastewater, consultation with local treatment plant staff is recommended (and may be required by law) before disposal. In typical activated sludge treatment systems, inlet concentrations below 50 mg/l have been treated without foaming problems.

#### **For Disposal of Neat, Unused Product:**

Incinerate in furnace where permitted under Federal, State and local regulation.

#### **Benefits of Biocontrol 1610:**

- Controls odors
- Easy to use
- Safer than chemicals
- Biodegradable formula
- Can be used almost anywhere
