# FOAM FREE

## Product Data Sheet

### **Product Description:**

- Highly concentrated rapid defoamer designed for use in spas and hot tubs
- Eliminates and prevents foam and sudsing in spa and hot tub water

### **Product Data:**

Physical state: Liquid

Liquid density: 1.020 g/ml

pH: 6.20 @ 20°C

Flash Point: 136°C (approx)

Boiling point: 110°C

Freezing point: no data

Solubility in water: 100%

Odour and appearance: A white, opaque milky solution. There is a mild, characteristic odour above the open liquid.

### **Directions:**

- Shake well before using
- Apply a small amount of Advance Foam Free on the surface of the spa water as required to eliminate the foam and suds
- If the suds return after a few minutes, repeat the application.

**Note:** If continual sudsing occurs, the hot tub may have to be drained, cleaned, and re-filled with fresh water.
